

# SPREADING IT KNOWLEDGE CREATING CAREER OPPORTUNITIES

# A PATHWAY OF SUCCESS

## ALMA - OVERVIEW

A Pathway of over 10 years in the services, starting from 1999, Alma is one among the pioneers in this field with over 0.7 million satisfied students & over one thousand IT Learning Centres to its credit. Our customers' experience is through our people and their performance, which result in an outstanding track record of success. These are the achievements that influence customers to trust us. The relationships which cause our customers to return to us year after year are built by our people.

Alma is one of the leading brands in the computer education sector, and holds national and international status. Alma members are proud of a decade legacy in providing quality education and training in computer technology and advanced IT courses. Alma offers many tailor made computer courses that are part of International Certification from Mauritius and Australia. It also has ISO and ICAL certifications for providing quality services to the user. Alma operates through multi-locations offices in India and international offices across the world.

Alma has emerged as one of the best source of technical education in India in just ten years. It provides a collaborative learning environment that weaves technology and management into everyday life. Addition to that Alma serves specialized courses in UG & PG of reputed universities and international certificate in IT & Management to the deserving scholars. Our innovative academic programs incorporate a tradition of academic excellence and experimental learning with an emphasis on team-work. We actively explore and develop new methodologies such as alternative teaching techniques and learning approaches that promote thinking skills and lifelong learning habits.

**So, follow your Interest, don't MISS!**

# USP & BENEFITS ALMA

## THE PIONEER IN IT EDUCATION & TRAINING

1. Alma is a purposeful & powerful source to meet the challenging demands.
2. Alma offers the most affordable prices for the valuable services to the participants.
3. Alma provides prompts & effective services through HO/Regional Office/Centres even to the remotest location.

**Alma always stands by you.**

### **Education and Training compatible to the aspirations and the needs**

Today, employers are leaning towards hiring IT professionals with more education and more real-world experience. Even at entry level information technology occupations usually require applicable experience or an associate's degree in an IT field.

Our courses are comprehensive and developed by well known experts in the field. Best of all, you can now study at your own pace with the latest technology available. Courses are suitable for corporate use in training departments as well as for self-study at home or in the office.

As a leader in IT education & training, Alma is committed to helping you get certified without breaking your regular education in other streams. We offer some of the most complete self-study training courses.

## A SUCCESS MANTRA

A PROVEN BUSINESS STRATEGY -  
FOLLOW THE SYSTEM-

A big benefit of franchisees is that Alma offer business owners a proven business strategy, while many new businesses struggle to develop a viable and profitable business plan. Alma franchisees have already demonstrated that they are capable of making substantial profits time and time again.

"**Follow the system**" is a mantra in franchising and critical to a franchisee's success. Franchisees adopt the **Alma Operating System** and follow it religiously to attain success and make profits. Alma Franchisees by virtue are attached to and resembled with Brand **Alma**. Franchisees often experience exponential growth with the Brand recognition as the franchising **grows and expands**.

Franchisers sell a defined, proven business format or method of operation, offering a product or service that has sold successfully. An independent business is based on both an untried idea and operation.

# PURPOSE

# OTHER GROUP INITIATIVES

## ALMA TIMES

One of the leading monthly news paper of India, 'ALMA TIMES' has been playing a vital role in motivating people, students in particular. Established to promote the social and educational awareness and committed to do its journalistic liability, 'ALMA TIMES' has, over the years, become potential platform to exchanging news and views of Alma and its members.

## ALMA MAGAZINE

A periodical dedicated to the Alma overseas associates spread worldwide. Alma Magazine is a major information source to our associates working globally in education & training for the students. Its main motive is to promote social and cultural awareness in the society.

ALMA COLLEGE facilitates the professionals with a platform to acquire relevant and flexible skills in cost effective way. We believe that learning should not be confined to increasing the depth of knowledge alone. Essential personality and behavioral skills hold equal importance for developing a thorough professional. This is achieved through an innovative, well researched blend of curriculum majors and elective minors. Alma College offers IT & Management program in affiliation with prestigious university, a UGC recognized university.

## ALMA INTERNATIONAL

Service to the society at international level

Alma Club connects international service to the society. Alma is widely known for its universal identity as Alma International Club (AIC) based on valued leadership and humanitarian norms in serving mankind. AIC focuses its activities through cementing human bondage, universal harmony, universal brotherhood, inspiring people for environmental protection etc. AIC has members from UK, USA, Australia, African Countries, Europe and Canada to serve the humanity.

# INTERNATIONAL INFORMATICS MAURITIUS LIMITED

INTERNATIONAL INFORMATICS MAURITIUS LIMITED

International Informatics Mauritius Limited is one of the leading organizations that has carved a niche in IT education sectors in Mauritius and is spreading its presence across the world to provide quality education through different job-oriented computer courses. IIML is recognised by the National Computer Board (NCB) of Mauritius.

To pave the way of technological developments along with changing technological scenario, IIML has been one of the best options for those who are trying to seek futuristic IT education. IIML is spreading its root in Africa, Europe, Asia and Australia with its expertise in educational certification that could match the requirements of IT industries and associated sectors. IIML, through its strategic tie ups with the dominant players of IT and IT education in various countries, provides an enthusiastic ambience to the youth towards technological advancement. The philosophy of IIML is to provide job-oriented computer education across the world with its expertise and matchless proficiency. The youth across the world would have, no doubt, efficiency to cope with challenges by changing technological scenario. In India, IIML has tied up with leading educational organization – Alma Limited to provide such job-oriented computer courses.

# INTERNATIONAL CERTIFICATION AUSTRALIA LIMITED

## INTERNATIONAL STAR CERTIFICATION FOR PERFORMANCE EXCELLENCE

Standards are a vehicle for the sharing of knowledge, technology and good practices: an essential component of the world-wide industrial and post-industrial infrastructure supporting economic activities, societal needs and more equitable opportunities – in other words, sustainable development.

The key role of standards has been implicitly recognized, since a long time, in the education programmes covering a broad variety of technical fields.

However, it is a more recent trend the increased awareness of educational institutions all over the world of the importance of standardization activities in a more general sense: for the contribution that they can give to trade of products and services, to promoting good business practices and to fostering technological innovation.

ICAL considers this trend of utmost importance and believes in the fundamental contribution that educational institutions can give on teaching what international standardization is and what can be achieved through it.

ICAL is keen to support these institutions in their efforts and to encourage them to share their knowledge, experience and expertise. Also, considering that education and research are often linked, ICAL wishes to promote studies and surveys relating to the macro- and micro-economic benefits of standardization.

**aiita**™

# ALL INDIA IT ASSOCIATION

## INTRODUCTION

**Aiita is a non-profit making organization founded by the association of likeminded people linked globally with IT & ITES stakes .**

A heritage of over 10 years in the services, starting from 1999, AIITA is one among the pioneers in this field with over 0.7 millions satisfied students & over one thousand IT Learning Centres to its credit. Our customers' experience is through our people and their performance, which results in an outstanding track record of success. Aiita is one of the leading brands in the computer education sector, and holds national and international status. Aiita members are proud of a decade legacy in providing quality education and training in computer technology and advanced IT courses.

Aiita also offers many tailor made computer courses that are part of International Certification from Mauritius and Australia. It also has ISO and ICAL certifications for providing quality services to the user. AIITA operates through multi-locations offices in India and international offices across the world. The institute provides a rigorous, intellectually challenging curriculum with flexibility to allow students to tailor their education to meet their professional and personal interests and goals.

AIITA has emerged as one of the best source of technical education in India in just ten years. Our innovative academic programs incorporate a tradition of academic excellence and experimental learning with an emphasis on team-work.

## INTRODUCTION

Socio-economic development of the underprivileged sections of the Indian society is prime factor of any Non-Government Organization (NGO) and they are religiously involved in their activities from metros to far-flung areas of the country. There is no doubt that state and central governments are doing their best to boost-up health, education, social, cultural and women empowerment sector of our country but their efforts and results need more concentration to get optimum output. In this way, the works of NGOs are commendable. According to existing statistic there are more than 10 lakh NGOs working on different streams to aid overall development of the nation.

The strength of their own devotion and dedication still needs a big platform to share and discuss their development and problems and NGO's Association of India (NAI) is one such initiative from the house of ALMA. We are taking this initiative to the national level to ensure synergy between these noble organisations and to provide strong backing to every single member as and when the need arises.
